## Reconsolidating the African Nation - Reclaiming Our Land!

ASI Chairman Omali Yeshitela, Deputy Chair Ona Zene' Yeshitela, APSP Agit Prop Director Dedan Sankara and Organizational Development Consultant Jennifer Madden traveled to Ghana in May, visiting the site of Cape Coast Castle with a student group.

"The castle and its Door of No Return symbolizes the port of dispersal of the African Nation. The goal of this trip is to begin the process of acquiring land in Ghana, which symbolizes the reconsolidation of the African Nation," says Chairman Omali Yeshitela.

Ghanaian comrade Afua Quayson translated English and Twi for the Chairman and Deputy Chair as they worked out an agreement for the land, which concluded with a traditional Ghanaian libation ceremony. To commemorate the event and mark the boundaries, a mango tree was planted by the Chairman and the family that owned the land for several generations.

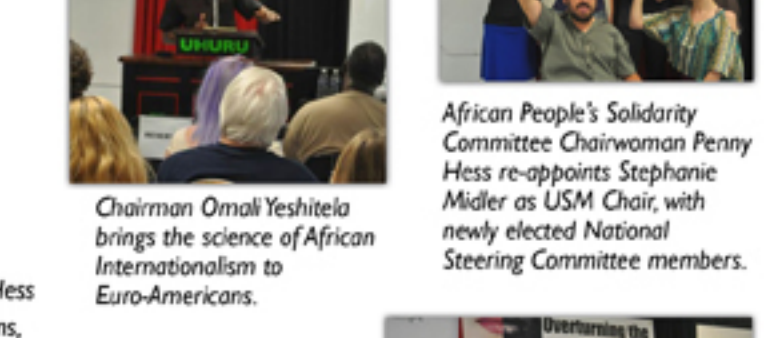

A fundraising strategy to raise the resources to acquire the land, along with a development plan for establishing a community, are the next critical steps for this important project.

## Overturing the Racial Divide through Solidarity with African Liberation

The 2013 Uhuru Solidarity Movement Convention featured profound political presentations from African People's Solidarity Committee Chairwoman Penny Hess and African Socialist International Chairman Omali Yeshitela. Building Penneys, branches and Days in Solidarity with African People throughout the US and Europe are the main focus in 2013.

Chairman Omali Yeshitela brings the science of African Internationalism to Euro-Americans.

African People's Solidarity Committee Chairwoman Penny Hess re-appoints Stephanie Midler as USM Chair, with newly elected National Steering Committee members.

**Chairman Omali Yeshitela compared USM to an acorn in a forest. "The aging trees towering overhead might appear large and daunting, but they are old and dying. While the acorn in the forest might appear small compared to the trees, it represents the future blossoming into existence. The forces of imperialism and colonialism are on their way into the ash heap of history where they belong. "Don't bet on the forest," said the Chairman. "Bet on the acorn."**

"I donate to help the Party succeed with getting the message out to the people throughout the world. It takes finances to make that happen. The more resources the Party has, the more we can spread the word."

**Redbeard aka David Reardon**  
San Francisco, CA

"The Party educated me about colonialism and won me to reparations in 1978. Continuing to support the Uhuru Movement is the logical continuation of my original commitment to provide political and material support for the African Independence Movement, for which I am grateful."

**Likay Bombi**  
Congo and United Kingdom

"En tant que membre engagé du Parti socialiste du peuple africain, nous devons fonctionner comme un corps organisé et nous devons soutenir financièrement le Parti. C'est une démonstration de notre engagement envers les objectifs et le parti"

"As committed members of the African People's Socialist Party, we need to function as an organized body and lead by example in financially supporting the Party. It is a demonstration of our commitment to the goals and work of the Party."

**Kefira Baron**  
Miami, FL

"I recognize that the resources I have access to are a result of stolen wealth. The only way to overturn the historically parasitic relationship with African people is through reparations and standing in solidarity with the struggle for African liberation."
